How does Facetime/Oovoo Work?

Facetime works if you have an iPhone and there is an app that is green. It shows a camera in the front. Oovoo works by downloading it and then you sign up and when you are there you can text, call, and you can also see each other.

How can these websites be used to bully?

It can be used to bully because you can text people rude messages and pictures. It also affects peoples lives because the people getting bullied may harm themselves, commit suicide, or hurt others.

How are Facetime/Oovoo Useful?

Facetime is really useful because a lot of people use it by seeing each other, call, or text but it's funner because you can send each other emojis.

How to use Facetime/Oovoo:

STEPS:

1. Facetime requires an iPhone. Oovoo needs the user to download the app
2. Enter email, Set up user profile
3. Enter email/phone # of recipient
4. Make a call (you can text and take photos as well)

Who uses it?

People use it a lot because it's useful and it's really fun. People use it a lot because you can use it to communicate with people.

Thank You For listening
and participating!!!!
